Correct answer :Triangle shape of Talus

5) Identify the structure

Correct answer : Flexor retinaculum

6) Identify the structure

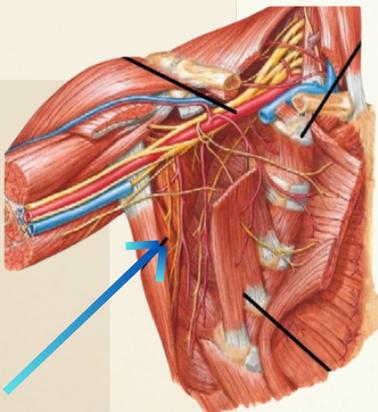

Correct answer : Anterior cruciate ligament

7) Identify the structure

Correct answer : Adductor pollicis

8) Identify the structure

Correct answer : Teres major

9) Identify the structure

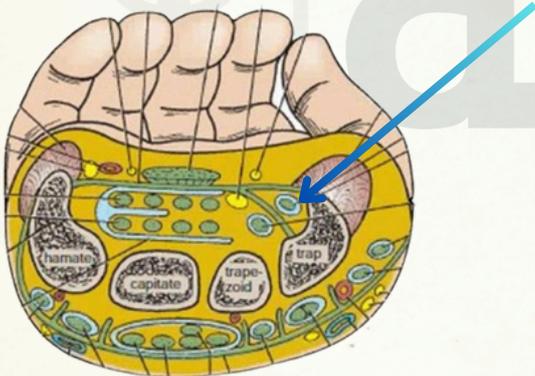

Correct answer : Supinator

10) Identify the structure

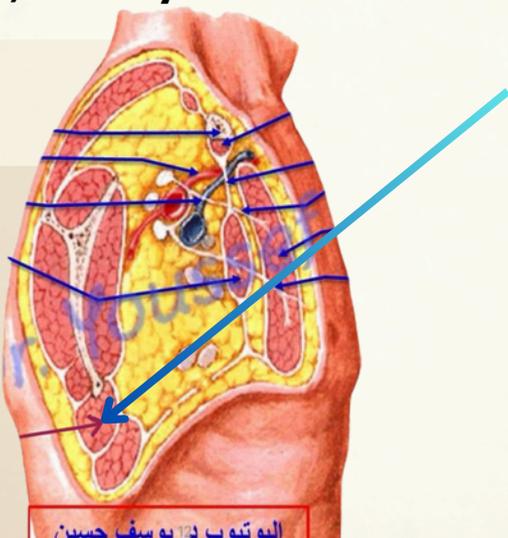

correct answer: axillary nerve

11) Identify the structure

correct answer: Flexor carpi radialis

12) Identify the structure

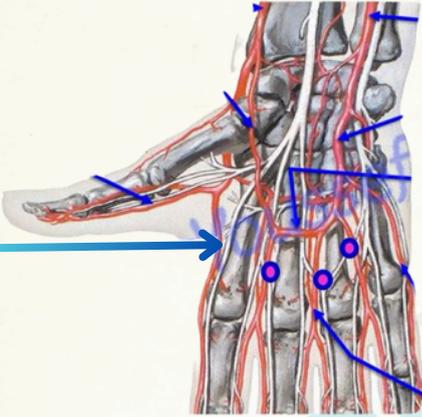

correct answer : Teres major

13) Identify the structure

correct answer : Radial(Lateral) collateral ligament

14) Identify the structure

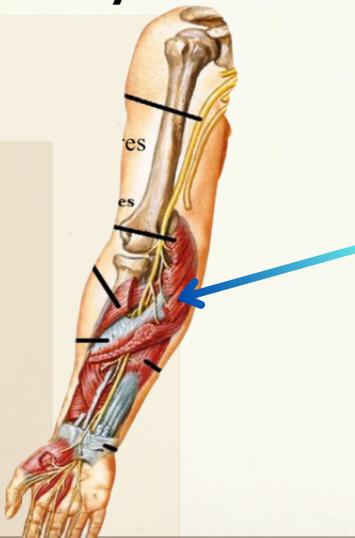

correct answer : Radialis indicis

15) Identify the structure

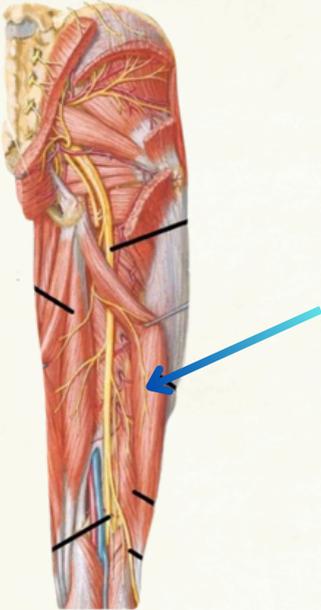

correct answer : Superficial Radial nerve

16) Identify the structure

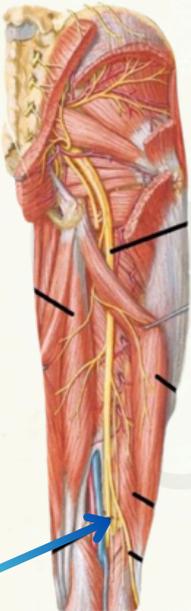

correct answer : Palmaris longus

17) Identify the structure

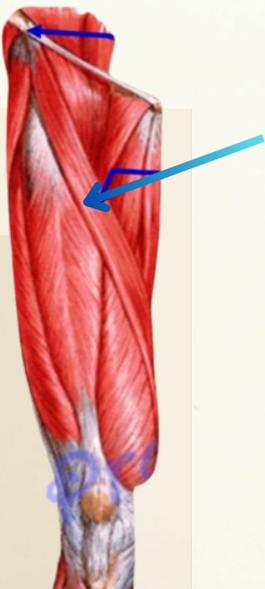

correct answer : Long head of biceps

18) Identify the structure

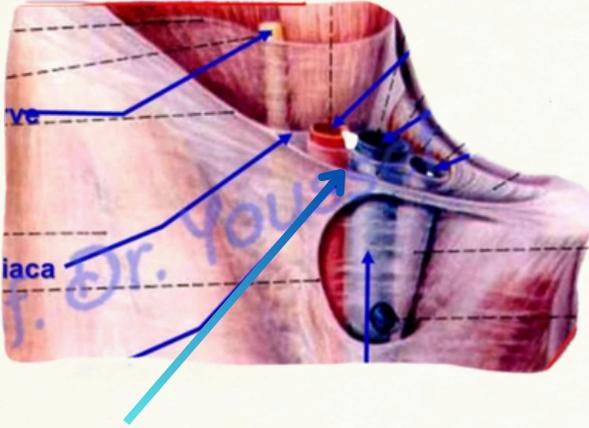

correct answer : Tibial nerve

19) Identify the structure

correct answer : Sartorius

20) Identify the structure

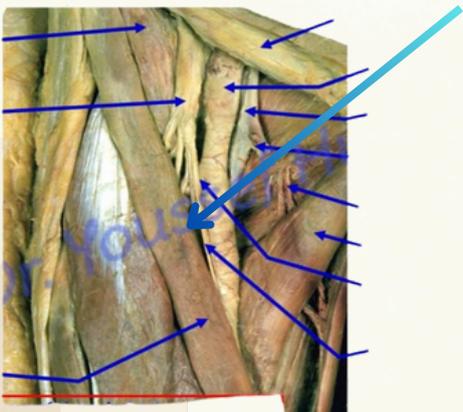

correct answer :Fascia transversals

21) Identify the structure

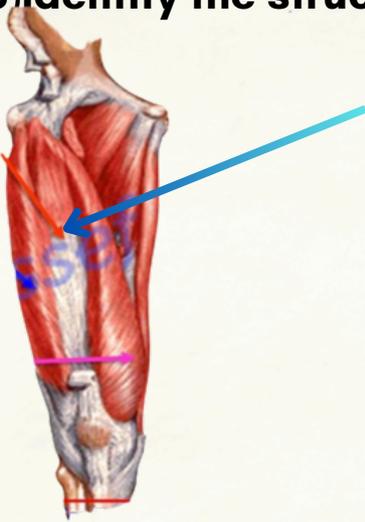

correct answer :Profunda femoris artery

22) Identify the structure

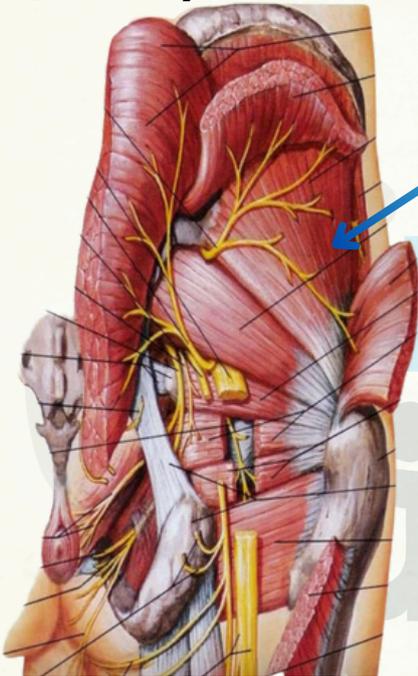

correct answer :Sartorius

23) Identify the structure

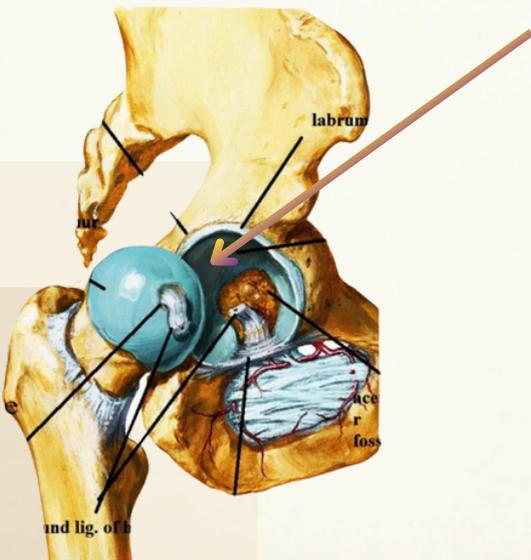

correct answer :Vastus intermedius

24) Identify the structure

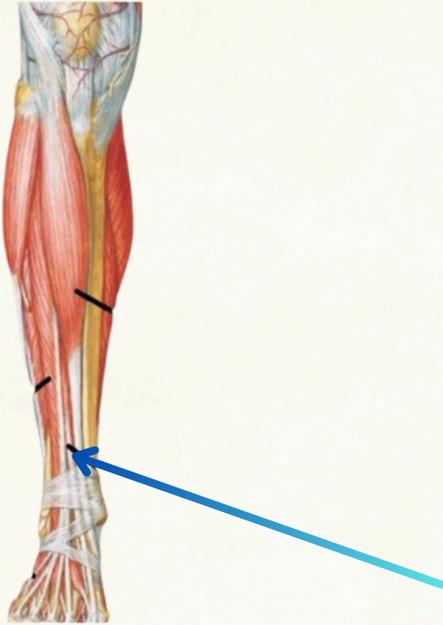

correct answer :Gluteus minimus

25) Identify the structure

correct answer :Lunate surface

26) Identify the structure

correct answer :Extensor hallucis longus

27) Identify the structure

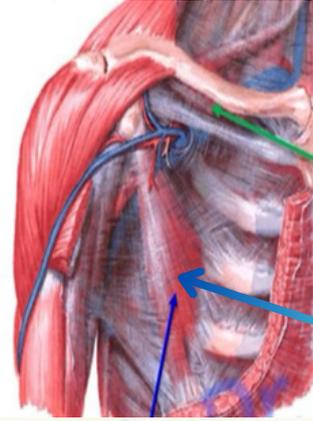

correct answer :iliofemoral ligament

28) Identify the structure

correct answer :Popliteus

29) Identify the structure

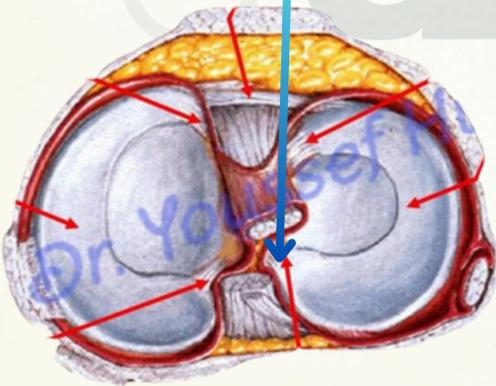

correct answer :Pectoralis minor

30) Identify the structure

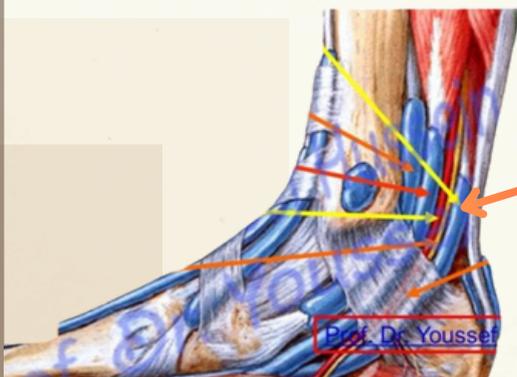

correct answer :Flexor digiti minimi brevis

31) Identify the structure

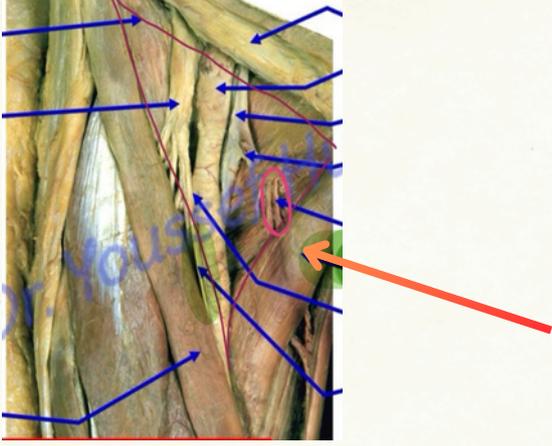

correct answer :Posterior horn of lateral meniscus

32) Identify the structure

correct answer : Flexor hallucis longus

33) Identify the structure

correct answer : Adductor longus

34) Identify the structure

correct answer : Musculocutaneous n.
