Heart Rate & Its Regulation

Corrected By :

Anonymuos

1. Which of the following inhibits Vaso motor center?

- a. Mild hypercapnia WM
- b. Moderate hypoxia
- c. Left ventricular baroreceptors
- d. Peripheral chemo receptors
- e. Central chemoreceptors

Answer : C

2. One liter of blood was lost. What possibly happened?

- A. Increase in firing of discharge from baroreceptors
- B. Chemoreceptors have no role
- C. Increase in activity of the vasomotor center
- D. Slight decrease in heart rate

Answer : C

أي ربّ

أسألك أن أوفق في مساعي، وأن أسير بحررك في طريقي آمنة مطمئنة، وأتذوق بهجة الوصول والحصول.

آمين.
